

Newsletter

January 2018

The Journal Usage Statistics Portal (JUSP) is a Jisc-funded service that provides a “one-stop shop” for libraries to view, download and analyse their journal, book, database and platform usage reports from multiple publishers.

- Library participation agreement renewal
- New publishers
- Six colleges join JUSP
- JUSP survey
- Database and platform reports in JUSP
- Webinars and support material

Library participation agreement renewal

The participation agreement Jisc has with libraries regarding JUSP is reviewed every 5 years and so libraries are being asked to renew their agreement by 6th February. Key contacts at institutions will have been contacted by Jisc Collections with information about how to renew. If you have any questions about the agreement, please contact the Jisc Collections helpdesk through help@jisc.ac.uk.

New publishers

University of California Press joined JUSP in December and we have collected JR1, JR1a and JR1 GOA reports through the HighWire platform. This month we also welcomed American Psychological Association (APA) to JUSP and we have now collected JR1, JR1 GOA, JR2 and JR5 data for Jan 2014 onwards. Book and database reports will be available in due course and we'll keep you informed through the mailing list.

Six colleges join JUSP

In December and January six more colleges joined JUSP. Welcome to City College Norwich, Sunderland College Group, Sussex Downs College, Leeds City College, Cleveland College of Art & Design, and RNN Group.

JUSP survey

Thank you to everyone who completed the JUSP survey. All your feedback is very valuable and will help inform development of the service and the support we provide. The lucky prize draw winner of an Amazon voucher has been contacted.

A report will be made available on the website in the coming weeks but here are the highlights.

The survey showed high satisfaction with JUSP: 78% were 'very satisfied', 20% 'fairly satisfied' and 2% neither satisfied nor

dissatisfied'. This was also reflected in your comments.

JUSP is considered to add value in terms of:

- Saving staff time (96%)
- Providing reliable data (86%)
- Providing better data for decision making (80%)

The survey indicated that new data visualisations released in November have been well received and expected to have a positive impact on work processes. Many considered that using JUSP data visualisations will make analysis, informed decision making, comparisons and communication easier and quicker.

Database and platform reports in JUSP

Since September 2017, JUSP has been collecting DB1, DB2 and PR1 reports in addition to the journal and book reports. Currently, we are collecting the DB1 from around 8 providers including EBSCOhost, ProQuest and Ovid and we are continually working to add more reports and more providers/publishers to JUSP.

- Database report 1 (DB1) shows number of monthly searches, result clicks and record views for each database - <http://jusp.jisc.ac.uk/guides-to-book-reports/db1.html>
- Database report 2 (DB2) shows number of monthly accesses denied to database content - <http://jusp.jisc.ac.uk/guides-to-book-reports/db2.html>
- Platform report 1 (PR1) shows number of monthly searches, result clicks and record views for each platform - <http://jusp.jisc.ac.uk/guides-to-book-reports/pr1.html>

All JUSP libraries can view these reports by accessing the BOOKS & OTHER section of the website after logging in. The first time you access the BOOKS & OTHER section we will need to activate your access - just follow the instructions on screen. If you think you are missing data for your library then please let us know through the helpdesk (help@jisc.ac.uk) and we will get this set up for you.

Webinars and support materials

All our webinars are recorded and made available on the JUSP website under Events and Training:

<http://jusp.jisc.ac.uk/events-training/>

The two most recent webinars were introductions to data visualisations in JUSP and database and platform reports in JUSP. Over the next couple of months we will be running an update and Q&A session that will review developments of the past 12 months and provide an opportunity for you to ask questions. Look out for more information on the mailing list.
