The Journal Usage Statistics Portal (JUSP)

The Journal Usage Statistics Portal (JUSP) is a Jisc-funded service that provides a "one-stop shop" for libraries to view, download and analyse their journal usage reports from multiple publishers. It responds to current financial challenges with time and cost saving benefits.

JUSP out and about

In November members of the JUSP team will be out and about presenting at various conferences and events.

We're presenting at the Charleston Conference (USA) on the 6th November; CPD25 eCollections Management workshop (London) on the 17th November; and as part of a KB+ workshop (London) on the 11th November.

We hope to see some of you there - please do say hello if you see us.

Journal renewals – an ideal time to encourage publishers to join JUSP

As a suggestion, when renewing your journal subscriptions for 2016, why not ask publishers about their intentions of joining JUSP and highlight how important JUSP is to UK academic subscribers.

This is an ideal time of year to indicate the vital role that JUSP plays in your workflows. A publisher can email jusp4publishers@jisc.ac.uk to be contacted by a member of the JUSP team.

JR1 GOA (Gold Open Access) reports

We are currently looking at how libraries are using the JR1 GOA reports. If you use these reports, or intend to use them in future, we'd love to find out more. Please contact the JUSP helpdesk and we'll be in touch.

If you haven't yet explored the JR1 GOA reports, you may find our guides useful for further information: http://jusp.mimas.ac.uk/guides-to-reports/

Contact Us

You can keep up-to-date with service developments by visiting our website www.jusp.mimas.ac.uk.

We welcome your views on your experience of using the website and portal.

Please get in touch if you have comments, questions or ideas for future developments.

Join us on Twitter @JUSPSTATS   JUSP is funded by Jisc   Email jusp@mimas.ac.uk

2015 user survey

We will soon be sending invites to the 2015 user survey so please look out for these in November. The surveys are an important part of our work as they not only provide us with valuable feedback on your experience with JUSP, but more importantly they inform our future planning. This year's survey has been streamlined to make it easier and quicker for you to complete, though we also have some additional questions to feed into developments with ebooks and other COUNTER reports.

Please do take the time to complete the survey if you can, and feel free to encourage colleagues who use JUSP to do so also.

New participating library

A warm welcome to Liverpool School of Tropical Medicine who now have access to their usage data in JUSP. This new addition brings the total number of libraries participating in JUSP to 183.

Community Advisory Group

The JUSP Community Advisory Group is meeting next month. If there is anything you would like to be added to the agenda for the group to discuss regarding future developments for JUSP, please contact Jo Alcock at jo.alcock@bcu.ac.uk by Wednesday 11th November.

New publishers

New data have been added this month from Royal College of Nursing and The Company of Biologists.

Royal College of Nursing - JR1, JR1a and JR1 GOA data for September 2013 to September 2015 are now in JUSP for those who have subscriptions from Royal College of Nursing. If your site has a subscription but no corresponding data in JUSP please let us know via jisc@jusp.ac.uk

The Company of Biologists - they are on the Highwire platform, so if you have subscriptions from the Company of Biologists but are not seeing data in JUSP, please make sure you associate them in your Highwire account and let us know at jisc@jusp.ac.uk
