Update on COUNTER Release 5

Based on conversations with JUSP participating libraries we know that people are keen to see how the new Release 5 (R5) reports will be presented. As with all of our key developments we are working with a pilot group of libraries to capture feedback as the R5 project progresses. Initially JUSP's Community Advisory Group will review and advise on developments and presentation of data and reports during an online workshop in November. Following that meeting, further developments will be communicated via the JUSPLibraries list. The R5 service is expected to be in production from February 2019, although availability of R5 reports will obviously be subject to delivery by participating publishers.

The “JUSP and COUNTER Release 5” news page is regularly updated and can be found at: <https://jusp.jisc.ac.uk/news/counter5.html>.

New videos from COUNTER on Release 5

COUNTER have produced the first two videos in a series of tutorials about Release 5. These Foundation Classes and recordings of recent webinars can be accessed on the COUNTER YouTube Channel (<https://www.youtube.com/channel/UCptZRUv5XbtP-jWkTckDplA?reload=9>) or directly from the links below:

Foundation Class 1: Metric Types (video)

Foundation Class 2: Release 5 Reports (video)

<https://www.youtube.com/watch?v=reyN1-NkUIE>

3 colleges join JUSP

JUSP welcomed three more institutions in August and September:

- ◆ **Bridgwater and Taunton College**
- ◆ **Northampton College**
- ◆ **The Trafford College Group**

For a full list of participating institutions take a look at the participants page on our website: <https://jusp.jisc.ac.uk/participants/#link3>.

Book reports for 4 suppliers added

We have added a number of book and platform reports to JUSP over the last couple of months:

- ◆ **Bibliotech Education** have joined JUSP and the BR2 and PR1 reports have been collected from January 2016
- ◆ **Duke University Press** - BR2, BR3 and PR1 reports have been collected from when they transitioned to their new platform in November 2017
- ◆ **JSTOR** – BR2 and BR3 reports have been collected from January 2015
- ◆ **Taylor & Francis eBooks** – BR1, BR2 and BR3 reports have been collected from July 2017

In August we also added JR2 data for Annual Reviews dating back to January 2015. We continue to work with suppliers and publishers to make more book, journal, database and platform reports available in JUSP.

Tips for reporting with JUSP

If you need to report usage statistics within your institution here is a reminder of some the reports and features in JUSP.

For a high-level summary of total journal usage across publishers take a look at:

- ◆ 'SCONUL return' <http://jusp.jisc.ac.uk/guides-to-reports/sconul.html> for academic year
- ◆ 'Annual summary of publisher usage' <http://jusp.jisc.ac.uk/guides-to-reports/pubsummary.html> for calendar year
- ◆ 'Summary of publisher usage by date range' <http://jusp.jisc.ac.uk/guides-to-reports/pubsummaryrange.html> for a chosen date range (such as financial year, quarter or month)

To pick out your most used titles 'Titles with the highest use' is available for the academic and calendar year and can be run across publishers. 'Trends over time' shows monthly totals for a publisher over several years.

Data visualisations are now available for journal, book, database and platform reports and useful for looking at trends, reporting to management and including in presentations (examples shown on the right). For more info, see our support guide: <https://jusp.jisc.ac.uk/guides-to-visualisations/>.

To find out how other libraries use JUSP take a look at the use cases, case studies and community area.

Upcoming training

We are currently planning training for the next few months and further details will be shared through the JUSP libraries mailing list. We also welcome ideas and suggestions for training and support.
