# JUSP workshop - books

## Checking for available data

---

1. You want to check whether JUSP can supply data for American Chemical Society. Which page of the website should you view?
2. Which reports are available in JUSP for ACS?
3. Use the support pages to find out whether it is possible to view BR<sub>3</sub> (access denied) reports weekly.
4. Access the Book Portal and go to the YOUR DATA tab. From what month are ACS book reports available?
5. Select Book Report 2 and then view the publisher menu. Future Medicine (FMED) is listed but not Future Science (FSCI). Why is this? Go back to the book portal home and switch to the Current Publisher issues tab to find out why.
6. Run a report that will show you access denials for Elsevier titles between January and February 2016. How many titles are included in this report?
