More journal data

Earlier this month we received the details we need from SAGE for all JUSP institutions. We have now updated SAGE data for 135 institutions for December 2016 and Jan and Feb 2017. Thanks especially to those members who contacted SAGE to help us get this progressed.

Cambridge University Press have finally released JR1a reports dating to the launch of Cambridge Core in September 2016, and these have also now been brought up to date.

JR5 reports for Karger are also available from 2015 onwards, and we continue to work on adding more JR2 and JR5 where available.

JUSP and Jisc at UKSG

Jo Lambert presented alongside other Jisc colleagues in a lightning update on library support services. For JUSP, this included plans for additional reports and new data visualisations. Slides are available on the Papers & Presentation page of the JUSP website **http://jusp.jisc.ac.uk/papers-presentations/**

You can also read a blog post from Siobhán Burke, library support services programme manager:

Edward Elgar Publishing

We are pleased to announce that Edward Elgar Publishing joined JUSP this month. We are working with them to fix a few issues with the reports and will inform you through the mailing list when data are available.

Shared for interest

COUNTER have now released a summary and responses to the feedback survey on the draft of COUNTER Release 5.
