The Jisc Usage Statistics Portal (JUSP)

The Jisc Usage Statistics Portal (JUSP) is a Jisc-funded service that provides a "one-stop shop" for libraries to view, download and analyse their journal and book usage reports from multiple publishers.

JUSP FAQs

We have recently updated our FAQ pages with further questions and answers.

Take a look at http://jusp.mimas.ac.uk/faq/

Have another questions? Contact our helpdesk jusp@jisc.ac.uk

ProQuest journal data

This month we are delighted to announce that ProQuest JR1 data are finally available in JUSP for 175 participating sites, covering January 2014 onwards.

As with other aggregators in JUSP, we do not offer a complete JR1 report for ProQuest, but have extracted the data from the reports for participating JUSP publishers. You will now see a column for ProQuest in any reports showing intermediary figures such as "JR1 plus gateways and intermediaries".

No.	Title	ISSN	eISSN	Totals							
				Cambridge University Press	Publishing Technology (ingentaconnect)	Ebsco EJS	Swets	EbscoHOST	ProQuest	Total
	Totals			4,826		0	0	0	12	21	4,859
1	Victorian Literature and Culture	1060-1503	1470-1553	15		0	0	0	0	9	24

Please note that we are not yet in a position to offer ProQuest book report data, we are still liaising with them over this and we have no confirmed timescales yet.

Upcoming CAG meeting

The next JUSP Commuting Advisory Group meeting will take place on Thursday 10th November in London.

Topics on the agenda include an update on COUNTER 5, data visualisations and JUSP ebooks services plans. If you have any topics you would like to CAG to discuss please email pete.dalton@bcu.ac.uk

For more information about the JUSP CAG see:

http://jusp.mimas.ac.uk/cag/

JUSP Case studies

We would like to produce a number of case studies illustrating how JUSP is used in various contexts and so we are would like to speak to JUSP libraries who would be willing to provide information to contribute.

- Have you used reports from JUSP to evaluate the effectiveness of your discovery system?

- Have you used reports from JUSP combined with other information to a support purchasing and renewal decision?

- Have you used the usage profiling functionality in JUSP?

If you have done work any of these please get in contact with Pete Dalton (pete.dalton@bcu.ac.uk) or the JUSP helpdesk jusp@jisc.ac.uk

SCONUL webinar

A couple of weeks ago we ran a webinar on using JUSP to help with the SCONUL return. The slides and recording are now available on the JUSP website under Events and Training.

More details on upcoming webinars will be released on the mailing list.

Ebook publisher priority survey

Thank you to everyone who has completed the survey. We are analysing the responses and key findings will be reported in the next newsletter.

Additional JR2 and JR5

In October we added additional JR2 and JR5 data to JUSP.

	JR2 (denials)	JR5 (by YOP)
American Chemical Society (ACS)	Yes	Yes
Annual Reviews	Not provided	Yes
BioOne	Yes	Yes

This brings the total number of publishers with JR2 data in JUSP to 8 and JR5 data in JUSP to 8.

Welcome to Hartpury College

Hartpury College joined JUSP on October and there are now 204 registered sites.
